## PROJECTS

**Civic Connect**↗        TypeScript & React Web App                                          **Present**

- Built an interactive platform where citizens can submit genuine complaints that are automatically routed to the appropriate authorities for quick resolution.

**Free Fire Tournament Website** ↗        React + TypeScript Web App                        **2025**

- Built a responsive player-registration platform using React and TypeScript, enabling users to join competitive tournaments and unlock performance-based prizes and in-game rewards.

**Personal Portfolio Website**↗        TypeScript & React Web Application                **2025**

- Developed a responsive portfolio using TypeScript, React, HTML, and CSS to showcase projects, skills, and achievements through a fast, component-based UI.
- Improved performance, routing, and accessibility, and deployed the application on Vercel for seamless multi-device access.

**Emma, Web Based Virtual Assistant**↗                                                                    **2024**

- Developed a responsive Virtual Assistant using HTML, CSS, and JavaScript with real-time user interaction, dynamic content updates, and smooth UI behavior.

## CERTIFICATIONS

Google Course on Python, **Coursera**
Learn java programming ,**Udemy**
